1955 DAYLILIES

THE EXCITING NEW DAYLILIES

Daylilies are easy to grow and will take care of themselves. New flowers will open each day, creating much excitement. Daylilies have become America's fastest growing hobby flower, due to the many astounding colors, forms and their toleration of all sorts of soils. Daylilies are tough, they can stand heat and drought.

CULTURE

Daylilies should be planted with crown of plant one inch beneath soil surface. The crown of plants is where the roots join the foliage. Plant in a sunny location for maximum bloom. The soil should be well drained and supplied with plenty of organic matter. Add a good sized handful of bonemeal when planting. When plants are getting their flower scapes give plenty of water for best result; water will well repay you in large blooms and good color.

PREMIUMS: On orders of \$4.00 and over, we add an extra gift plant. Another premium we are noted for is our large, husky plant.

TERMS: Cash with order. All orders of \$4.00 and more shipped postpaid. Below that, add 40c for shipping and packing.

INVITATION: You are invited to join the HEMEROCALLIS SOCIETY. Send \$3.50 dues to the American Hemerocallis Society, Secretary, Daisy L. Ferrick, 416 Arter Ave., Topeka, Kansas.

OTHER LITERATURE: "DAYLILIES FOR EVERY GARDEN," from the University of Illinois, College of Agriculture, Urbana, Illinois, for only 35 cents. This 64-page book is known as "Circular 716." It is chock full of all the information one needs to know on Daylilies.

GUARANTEE: All plants guaranteed to be true to name, free from disease and insect pests. All plants are State inspected.

Orders Shipped April 15th to October 1st
